

URGENT ALERT

4 Babies Have Died

...

Over 900,000 Simplicity & Graco Bassinets Have Been Recalled

IS YOUR BABY SLEEPING IN A SIMPLICITY OR GRACO BASSINET?

On August 20, 2009, the Consumer Product Safety Commission (CPSC) re-announced its nationwide bassinet recall. The CPSC's urgent safety notice **affects Simplicity and Graco 3-1 and 4-1 convertible close sleepers and bedside sleepers**. The unsafe bassinets have a gap between the mattress and the lower bar. An infant can slip through the gap and suffocate.

If you have a Simplicity or Graco 3-1 or 4-1 bassinet with the dangerous design flaw...

- **Stop using the bassinet immediately.**
- **Return the product for a full refund or store credit.**
- **Call the Illinois Attorney General's Recall Hotline at 1-888-414-7678.**
