

Cyber Safety Survey: The Results

November 2009

LISA MADIGAN
ILLINOIS ATTORNEY GENERAL

A Message from Illinois Attorney General
LISA MADIGAN

Children and youth are fully engaged with technology and have incorporated it into their daily lives. Yet, with all new innovations come risks. My office conducted a survey of more than 4,200 youth throughout Illinois to find out what communication technology they are using and how they are using it, and what their experiences have been. This Cyber Safety Survey is the first of its kind to focus exclusively on the youth of Illinois. The results of the survey, contained in this report, are both interesting and enlightening. It is my hope that we will be able to use this information as we continue in our efforts to protect and educate our children.
