

## Foundation to Provide Sexual Assault Patient Care in the Emergency Room Training

The Illinois Attorney General's Office is pleased to offer a webinar training via WebEx on sexual assault patient care designed to improve the response to sexual assault patients.

The **Foundation to Provide Sexual Assault Patient Care in the Emergency Room** training is for law enforcement, advocates, first responders, nurses, mid-level providers and physicians who would like to learn best practice guidelines for the medical forensic approach to the care of sexual assault patients.

The Office of the Illinois Attorney General reserves the right to select participants for the training based upon specific selection criteria. To maximize the number of agencies and geographical areas represented at the training, the Attorney General's Office may limit the number of attendees that an agency or geographical area may send. Written communication detailing acceptance or non-acceptance will be sent via post or email to all applicants.
